

**NOTICE OF COMPLETION OF TWO ENVIRONMENTAL SCREENINGS  
BRACEBRIDGE FALLS GENERATING STATION, GENERATING EQUIPMENT UPGRADES  
and  
WILSON'S FALLS GENERATING STATION RECONSTRUCTION**

Bracebridge Generation Ltd. has completed environmental assessments (EAs) for turbine replacement at the Bracebridge Falls Generating Station and for reconstruction of the Wilson's Falls Generating Station. Both sites are located in the Town of Bracebridge on the North Branch of the Muskoka River. The Bracebridge Falls powerhouse will be extended to accommodate larger equipment and the existing Wilson's Falls powerhouse will be removed and reconstructed in the same location. At each site, one new turbine will be installed, penstocks will be replaced and modifications to dams will be completed. Each new turbine will generate approximately 2700kW, more than four times existing generating capacity of the aging original turbines. The results of the Environmental Screening process indicate that adverse environmental effects can be mitigated appropriately.

The EAs are subject to the requirements of the Ministry of the Environment's "Guide to Environmental Assessments for Electricity Projects" (Regulation 116/01) and to the Ministry of Natural Resources' "Water Management Guidelines for Waterpower". This notice also fulfills communication requirements of the "Muskoka River Water Management Plan".

As of **April 14, 2010** copies of the EAs can be viewed during regular business hours at the following locations:

In Bracebridge at:

- Bracebridge Generation Ltd. – 196 Taylor Road
- Town of Bracebridge, Municipal Offices – 1000 Taylor Court
- Bracebridge Public Library – 94 Manitoba Street

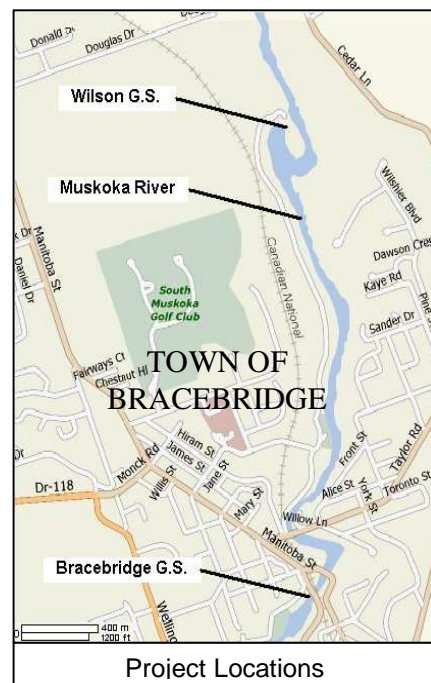

In Huntsville at:

- Bracebridge Generation Ltd. - 200-395 Centre St N
- Huntsville Public Library – 7 Minerva Street East

The EAs can also viewed on line at  
[www.bracebridgegeneration.com](http://www.bracebridgegeneration.com)

Where a concerned party feels that environmental concerns remain unresolved and after first discussing these concerns with Bracebridge Generation Ltd., a person may request a Part II Order under the Environmental Assessment Act requiring elevation of a project to an environmental review or an individual assessment. Requests for Part II Orders must be made in writing to the address below, must be in accordance with provisions of Regulation 116/01, and must be received by the Ministry of the Environment on or before **May 13, 2010**.

**Ministry of the Environment  
Environmental Assessment and Approvals Branch  
2 St. Clair Ave West, Floor 12A  
Toronto, ON, M4V 1L5  
Attn: A. Garcia-Wright, Director**

A copy of an elevation request must be forwarded to Bracebridge Generation Ltd. at its Huntsville address.

For further information on these projects, or to submit comments please contact:
